Lahore, Pakistan

Professional Summary

Data Scientist and AI Engineer with a strong mathematics background and experience in Python development, backend systems, and machine learning. Skilled in building applications using FastAPI, PostgreSQL, and MongoDB, with experience in LLM integration, voice AI, and deep learning frameworks such as TensorFlow and Keras. Applies research and analytical thinking to solve complex problems and communicate technical concepts effectively.

Education

University of Engineering and Technology (UET), Lahore, Pakistan 2025 – 2027
Master of Science (MS) – Data Science CGPA: 3.68/4.00

Government College University (GCU), Lahore, Pakistan 2020 – 2023
Master of Science (MSc) – Mathematics CGPA: 3.37/4.00

Professional Experience

Viper Academy, Lahore, Punjab, Pakistan Jun 2026 – Jul 2026
Python & AI Instructor

- Delivered instruction in Python programming, data fundamentals, and introductory AI/machine learning concepts to students
- Designed and led practical exercises covering data handling, problem-solving, and applied ML foundations

Freelance / Remote Dec 2025 – May 2026
AI Developer

- Built and tested AI voice bots in Python using PipeCat, integrating LLMs with TTS and STT pipelines
- Evaluated conversational performance and improved response quality through iterative testing and analysis

Meissasoft, Lahore, Punjab, Pakistan May 2025 – Dec 2025
Python Developer

- Developed backend applications using FastAPI, PostgreSQL, and MongoDB
- Strengthened OOP and data structures/algorithms skills through production projects while collaborating with teams via Git

Hajveri Lyceum School, Lahore, Punjab, Pakistan Aug 2023 – May 2025
Mathematics Teacher

- Taught mathematics to grades 5–9, simplifying complex concepts through interactive teaching methods
- Increased student engagement through structured lesson planning and formative assessment

Ali Science Academy, Gujrat, Punjab, Pakistan Jun 2018 – Mar 2020
Mathematics Teacher

- Prepared students for exams through personalized instruction and problem-solving techniques

Internships

InsightSol Technologies, Lahore, Punjab, Pakistan Apr 2024 – May 2024
Machine Learning Intern

- Developed and evaluated machine learning models in Python for data analysis, prediction, and classification tasks

Courses, Certifications & Training

National Vocational and Technical Training Commission (NAVTTTC), Government of Pakistan
Artificial Intelligence (Machine Learning & Deep Learning) – Minhaj University, Lahore Jun 2023 – Dec 2023

Coursera

- Data Science Math Skills – Duke University (Jul 2024)
- Introduction to Discrete Mathematics for Computer Science – UC San Diego (Dec 2023)
- Understanding Research Methods – University of London (Sep 2023)
- Introduction to Mathematical Thinking – Stanford University (Aug 2023)

- Algebra: Elementary to Advanced – Johns Hopkins University (Aug 2023)
- Expressway to Data Science: Essential Math – University of Colorado Boulder (Jul 2023)

IELTS • Overall Band 7.0 (CEFR C1)

Sep 2024

Listening: 8.0 • Reading: 7.5 • Writing: 6.5 • Speaking: 6.0

Technical Skills

- **Programming & Data Science:** Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn) – **Intermediate**; Machine Learning – **Intermediate**; Deep Learning (TensorFlow/Keras) – **Basic**; SQL – **Basic**; DSA – **Basic**
- **Backend Development:** FastAPI (Uvicorn, Pydantic) – **Intermediate**; SQLAlchemy, Alembic – **Intermediate**; OOP – **Intermediate**
- **Databases:** PostgreSQL – **Basic**; MongoDB – **Basic**
- **AI & Voice:** PipeCat, LLM Integrations, STT, TTS – **Intermediate**
- **Tools & Platforms:** Git – **Intermediate**; LaTeX – **Intermediate**; Jupyter Notebook – **Intermediate**; Canva – **Basic**; Microsoft Office (Word, PowerPoint) – **Intermediate**

Professional Skills

Communication – **Good** • Problem Solving – **Excellent** • Decision Making – **Excellent** • Time Management – **Excellent** • Adaptability – **Excellent** • Creativity – **Excellent** • Teamwork – **Excellent** • Persuasion – **Good** • Leadership – **Good** • Emotional Intelligence – **Excellent**

Projects

Completed during Machine Learning internship at InsightSol Technologies and the NAVTTC Artificial Intelligence course

- **House Price Prediction** | Python, Scikit-learn, Pandas – Compared 8+ regression models (linear and tree-based) to predict housing prices
- **Heart Disease Prediction** | Python, Scikit-learn – Trained 4 classifiers (Logistic Regression, Random Forest) achieving 92% accuracy
- **Student Performance Analysis** | Pandas, Regression – Built a multiple regression model ($R^2=0.92$) with full data preprocessing pipeline
- **Brain Tumor Detection** | TensorFlow, Keras – Built a CNN model for medical image classification
- **Credit Card Fraud Detection** | Scikit-learn – Applied anomaly detection using Logistic Regression
- **Diabetes Classification** | Scikit-learn – Built a Decision Tree model for diabetes prediction
- **MNIST Digit Recognition** | TensorFlow/Keras – Built an ANN for handwritten digit classification
- **CIFAR Image Classification** | TensorFlow/Keras – Implemented CNNs for CIFAR-10/100 datasets
- **Career ChatBot** | Python, API Integration – Built an API-integrated career recommendation chatbot
- **Chess Game Engine** | Python, OOP – Designed a modular object-oriented chess engine
- **Ride Sharing Simulation** | Python, OOP – Simulated an Uber-like system with Driver, Rider, and Ride classes
- **Student Management System** | FastAPI, SQLAlchemy – Built a CRUD-based web application

Languages

Urdu: Listening (C2), Reading (C2), Speaking (C2), Writing (C1)

English: Listening (C1), Reading (C1), Speaking (B2), Writing (B2)

Extracurricular Activities

- **Member, Chawla Mathematics Society**, GCU – Helped organize mathematics seminars and workshops
- **Member, Blood Donor Society**, GCU – Volunteered in blood donation drives and awareness campaigns
